  - East front field—irrigated existing alfalfa crop
  - “East-east” field—not used in 2019
  - Greenspace with Pond—irrigated landscape area
  - Greenspace east of Starwood Drive-- irrigated landscape area
  - Galaxy Park-- irrigated landscape area
- Agricultural Status
  - FIELDS: West front field, East front field
  - CROP: Existing Roundup-Ready Alfalfa stand
    - Estimated planting date 2017 by Chris Arsenault. Crop subsequently abandoned.
  - PESTICIDE APPLICATIONS:
    - Roundup PowerMax EPA # 524-549; 44 oz per acre
    - Hel-Fire Adjuvant
    - Application: 5/31/19 by Helena Chemical
  - FERTILIZER APPLICATIONS: None.
  - IRRIGATION:
    - Began 6/3/19 until early September, both fields.
    - Irrigation was all volunteer—Thane Edmiston & Tim Elmore, with setup support from Rod Page, Bob Wilkinson, and several other neighbors.
  - OTHER ACTIVITIES:
  - HARVEST: One cutting and baling of alfalfa first week of August 2019; no subsequent cuttings.
  - YIELD: 9.5 3x3x8’ bales total
  - MANAGED BY: The spray, irrigation, etc. were managed by Starwood volunteers Tina Galloway, Tim Elmore and Thane Edmiston. The harvest was done by Brian Robey, and he received the bales for free as his payment.
  - OTHER NOTES:
