

Starwood Association Front Fields Record

2020 Season

Prepared by: Tina Galloway

- Water rights Status
 - ALL fields leased instream in 2018, due again in 2023
 - “West-west” fields—not used in 2020
 - West front field—irrigated spring wheat crop
 - East front field— irrigated spring barley crop
 - “East-east” field—not used in 2020
 - Greenspace with Pond—irrigated landscape area
 - Greenspace east of Starwood Drive-- irrigated landscape area
 - Galaxy Park-- irrigated landscape area
- Agricultural Status
 - FIELDS: West front field, East front field
 - CROP:
 - West front field: Hard Red Spring Wheat (DNS = dark northern spring)
 - Planting Date: May 11, 2020
 - Variety: Espresso, grower believes
 - Treatment: unknown
 - East front field: Spring malting barley
 - Planting Date: May 13, 2020
 - Variety: Full Pint, grown in Starwood
 - Treatment: unknown
 - PESTICIDE APPLICATIONS:
 - April 29, 2020—both fields
 - Roundup PowerMax
 - Unison
 - Hel-Fire Adjuvant
 - June 17-19, 2020—both fields
 - Trump Card
 - Harmony Xtra
 - FERTILIZER APPLICATIONS:
 - May 5, 2020—both fields
 - Product: 30-7-7-5
 - Rate: 300 lbs/acre
 - IRRIGATION:
 - Began with pre-plant irrigation May 10, 2020
 - Restarted irrigation May 14, 2020 and continued on and off until early September, both fields.
 - Irrigation was all volunteer—Thane Edmiston & Tim Elmore, with setup support from Rod Page, Bob Wilkinson, and several other neighbors.
 - OTHER ACTIVITIES:

- HARVEST:
 - East field barley was harvested first week of August, 2020.
 - West field wheat was harvested September 12th
 - Both fields were then harvested for straw in late September, early October.
- YIELD:
 - No full report from the grower. We believe he harvested one “truckload” from the barley grain, and about 1 ½ truckloads of the wheat grain. He said with the straw harvest, overall he came out in the black on the fields. We do not require a full report of the value from the grower, but we do want to document that there was a beneficial harvest.
- MANAGED BY: The irrigation labor was managed by Starwood volunteers Tina Galloway, Tim Elmore and Thane Edmiston. All other farming activities and all management decisions were done by Ed Galazzo, who agreed to farm the field for his own risk and benefit, with no fee for land rent.
- OTHER NOTES:
